

THE HEALTHCENTER

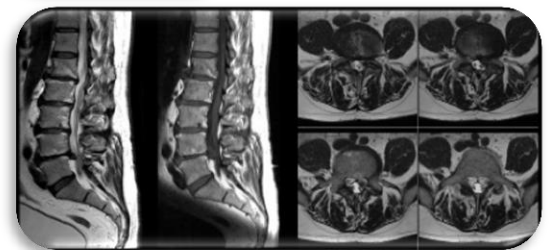

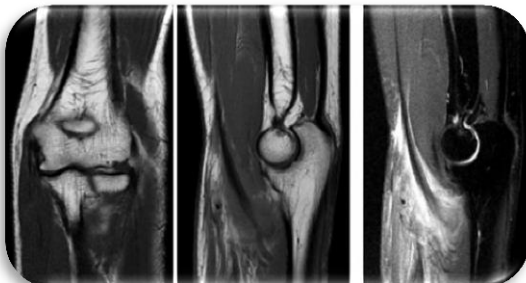

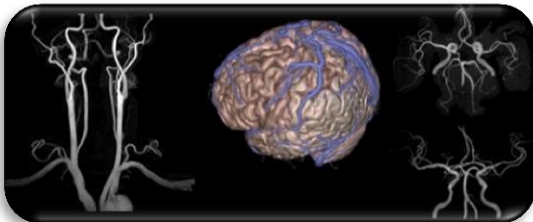

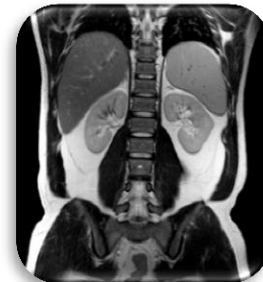

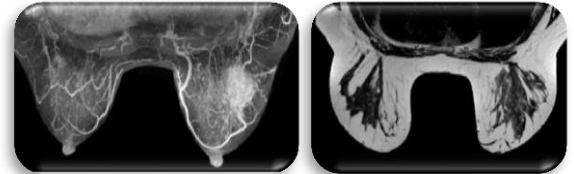

Phillips County Hospital, in partnership with The HealthCenter/Kalispell Regional Healthcare, is proud to announce the addition of MRI services to the community.

Starting in November, a new, state-of-the-art 1.5T MRI scanner will be providing MRI services with the highest quality, and greatest diagnostic capability available for our patients.

The new, high-channel, MRI scanner provides exceptional overall image quality in all areas. The larger bore size provides for superior patient comfort.

Some highlights:

- **Breast Imaging**
 - High risk screening
 - Diagnosis and staging
- **Improved Abdomen/Pelvis Imaging**
 - Studies can be done with no breath-holding
- **Hi-Resolution MSK Imaging**
 - New high-channel count coils for all exams
- **New MRA Techniques**
 - Neuro, body, and extremities
- **Hi-Resolution Neuro and Spine Exams**
 - Higher sensitivity to small bleeds and infarcts
 - Better correction of motion artifacts
